

# GC Surveys are RISQS Approved

18/3/2016

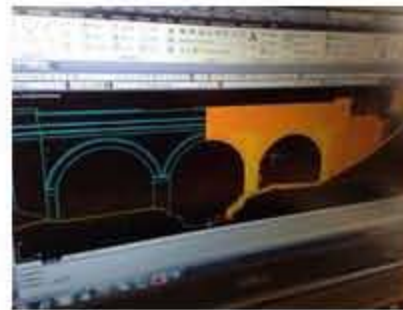

0 Comments

## Earlier this year GC Surveys gained RISQS verification

After several years of being sponsored by one of our major clients, we took the step late last year of becoming RISQS (Rail Industry Supplier Qualification Scheme) approved. Having been working on railway infrastructure for many years for our primary sponsor, we are now in a position to carry out this work for any client. Our rail work predominantly consists of topographic surveys for drainage schemes, scour protection surveys, culvert and headwall surveys along with more varied tasks. If you have a requirement for experienced railway surveyors please do not hesitate to get in contact with us. All our staff are trained to the highest level in the following areas:

- PTS and DCCR
- First aid
- Confined Spaces
- Asbestos Awareness
- Working in water
- CSCS

In addition we have a team dedicated to working on National Grid Electrical Sub-Stations carrying Person and BESC qualifications.
