

Office measured building survey, barn survey and TSA membership

23/4/2012

0 Comments

Last week we carried out a floor plan survey of a recently refurbished London office space for fitting out purposes. We are now looking forward to a day in the country, laser scanning a brick barn. The barn will have a new oak frame dropped inside, our survey will allow the frame designers to finalise the dimensions prior to construction.

We are also in the process of putting together an application to join [The Survey Association](#), watch this space!

Pittville Gates Survey

10/4/2012

0 Comments

We have now finished our survey of the historic gates to Pittville Park in Cheltenham. This was carried out using a Leica C10 laser scanner. We provided a topographic survey of the immediate area and front elevation to the gates.
