

Happy New Year 2015

4/1/2015

0 Comments

We hope all our staff, customers and suppliers had a great Christmas and a Happy New Year. After a much needed break we are all due back at work tomorrow, with plenty of work already booked in for January. This week sees us commence work on a large measured building survey, a number of railway culverts and a full scour protection railway bridge survey in Cumbria. The rest of the month continues in a similar way along with a couple of ongoing monitoring projects, notably the level monitoring of a very old concrete floor at Oxford University's Real Tennis court and retaining wall monitoring in nearby Abingdon.

Upgrade to Full TSA Membership

We are proud to have been recently upgraded to Full Members of [The Survey Association](#) which continues to go from strength to strength. No doubt we will soon be sending our recent trainee land surveyor Dan Lowe to The Survey School (now run by TSA).

Grantham Coates continue to invest with new super fast PC

Superb set of railway tunnel portals laser scanned last year

Just prior to Christmas we took delivery of a super fast PC to run our laser scanning projects on. We look forward to getting this up and running improving productivity and deliverables for laser scanning projects.

We all wish you a prosperous and happy year ahead!
